

WASHERS DESIGNED TO SOLVE FASTENER FAILURE.

- RoHS Compliant
- Mechanical Zinc Plating available
- 100% Manufactured & Tested in INDIA
- Custom Sizes available on request.
- Minimise Costs & Maximize Safety.
- Prompt Delivery

LockRite Washers are used alongwith Bolts and offer resistance to self loosening during vibration & fluctuating loads. These Washers wedge each other and lock themselves utilizing Tension leading to a secure Bolted Joint. Using our LockRite Washers ensures a Long Term Vibration Proof Locking Devices.

Advantages & Features over others :

- To solve the Problem of Fastener failure due to Bolt Loosening.
- Simple, Reusable & Reduces Maintenance Cost by avoiding Fastener failure.
- No Lubrication required and No Failure in Locking if there is Lubrication.
- Available is Stock in STD. Bolt Size.
- No Friction during Locking and Vibration, thus No Damage, Wear & Tear to Bolts.
- Available in a variety of material to suit similar Working Temperature of Bolts.
- Used to prevent Fastener Loosening caused by Dynamic Loading.
- Results in Joint Integrity.

Applications :

Automotive, Railways, Marine, Power Plants, Thermal Energy, Wind Energy, Construction, Mining, Marine, Agriculture, Off Road, Earthmoving Equipments, Onshore & Offshore Projects, Process Industries, Switchgears, Machineries, High Voltage Motors, etc., etc.
